GENERALIZED CO-COHEN-MACAULAY AND CO-BUCHSBAUM MODULES, ALGEBRA COLLOQ. (SCIE) 14 (2007), 265-278.

Nguyen Tu Cuong, Nguyen Thi Dung, Le Thanh Nhan

TÓM TẮT:

We study two classes of Artinian modules called co-Buchsbaum modules and generalized co-Cohen–Macaulay modules. Some basic properties and characterizations of these modules in terms of -weak co-sequences, co-standard sequences, multiplicity, local homology modules are presented.
